Flying Dog Protection Caps

L-CARNITIN

**L-Carnitine plus** is a unique product which combines components needed for a metabolism boost. **L-carnitine** helps to transport and process fatty acids. Taurine encourages brain activity and neuromuscular coordination. **Coenzyme Q10** is an important part of the energy production and it increases overall organism's vitality. **Choline** (B8) contributes to lipid metabolism. Chromium is required for keeping the glucose level in blood. Besides that, this product contains the natural extract from a tropical fruit **garcinia cambogia** with high amount of hydroxycitric acid (HCA) which reduces the transformation of saccharides into fat reserves.

**TESTED BY RACING DOGS**

**Dosing:** 1 capsule per day for 10kg of dog's weight.

**Warning:** Do not exceed recommended dosage. This product is not a substitute for a healthy balanced diet. It is not suitable for pregnant and nursing dogs.

**Distribution:** DERMIC MEDICAL
