VITAMINS MINERALS

VITAMINS & MINERALS is a complex of vitamins and minerals for the health of your dog. Vitamin C is important for development of bones, teeth, and collagen synthesis. The complex of vitamin B is needed for the essential organism functions such as immune, nervous and circulatory systems. It is enriched with micronutrients such as iodine which is important for the endocrine system and the hormonal balance.

TESTED BY RACING DOGS

Warning: This product is not a substitute for a healthy balanced diet. Do not exceed recommended dosage. Keep a close watch on a vitamin intake of your dog. Some food is enriched with vitamins. Ask your vet in case you have any concerns.

Dosing: Preventative and during growth one capsule per day for 10kg of the dog's weight.
